ABOUT ME

I am a jack of all trades software engineer with a focus towards fullstack web development, or more specifically Python & Node.js on the back-end and React for the front-end, as I would love to take the opportunity to learn as much as I can about all aspects of what it means to create for the web.

EXPERIENCE

INSTRUCTOR ASSOCIATE GENERAL ASSEMBLY AUSTRALIA

FEBRUARY 2023 - APRIL 2023

- Responsible for running office hours for students each week, spearheading class discussions to help the more shy students voice their thoughts/concerns, and promptly assisting students with any/all web development questions in/out of class
- Managing and mentoring students through one on ones to track progress and explain concepts missed, keeping track of student attendance and homework as well giving prompt and appropriate feedback
- Collating all class notes and assignments to the shared Google Drive and class Slack and uploading various resources useful to students that aids in overall understanding of web development

EDUCATION

SOFTWARE ENGINEERING IMMERSIVE, GENERAL ASSEMBLY 2022

- HTML/CSS/JS
- Python + Flask
- NodeJS + Express
- React + React Router/Next.js
- Unit Testing using Jest
